HOBBIES

ABOUT ME

From the moment I produced "Hello World" in the console of my first application, I knew I was hooked into the world of software development. But software development has never been "just a job" for me, it's offered an engaging challenge to continually learn and improve my skills in creating high-quality software. What started with a simple "Hello World" has become a full-fledged passion that only gets more exciting as the years go by.

Below you'll find some information about projects I've completed that showcase my skills and general background in developing software.

WEB DEVELOPMENT EXPERIENCE

The Projects that I did

- Built modern and beautiful portfolio websites by using modern HTML5, CSS3 (Animations, Transforms, and Transitions) and Bootstrap and JavaScript (Jquery) features.
- Made professional looking TinDog e-commerce website's front page responsive design with HTML5, CSS3 Grid and Bootstrap.
- Built Simon game and Dicee game using advanced JavaScript and CSS3 technologies.

SKILLS

HTML5

CSS3

JAVASCRIPT

BOOTSTRAP

JQUERY

MS Word, MS Excel
